# KVS LOGO

**Sun is the origin of our beautiful planet and also the source of light that enables us to see it. It is an ultimate source of life and energy. The radiance and glow it emits are well cherished metaphors in all cultures for wisdom and clarity. Sun is the implementer and facilitator of time and by its consistency it stands as an enduring symbol of persistence and unfailing order. It is adored in all cultures hence seen as an entity discharging the affection and influence over every element that principally is part of it. Books are conservers and carriers of knowledge. They signify literacy and independence, availability and accessibility of knowledge and information. Buoyant birds are signifiers of imagination, freedom, mastery, space, migration, pace, lightness, fluency, and accomplishment. India's tricolor national flag is symbol of unity in diversity and national integration and is suggestive of KVS's national nature and spirit.**
